Summary

Professional Profile

I am a web developer with a vast array of knowledge in many different front end and back end languages, responsive frameworks, databases, and best code practices. My objective is to maximize my potential and passion in web development thru experience and mentoring with experienced developers.

At TAV College I excelled in mathematical algorithms and problem-solving techniques as well as debugging and troubleshooting when required that allowed me to recognize my analytical skills which I do believe will serve me well in my career path as a successful and creative developer given the right environment.

Core Competencies

- Excellent communication skills
- Great ability to work with a team
- Excellent problem-solving skills
- Strong analytical skills
- Good leadership skills
- Excellent attention to detail
